## Why do you need to plan?

### Where are you now?

- Is your financial future secure?
- Have you considered a retirement that could last 20 years or longer?
- What measures can you take today in planning for the quality of life you expect tomorrow?

### Have you ever wondered about...

- Saving to buy a home or pay for college?
- Taking full advantage of saving with pre-tax dollars?
- Having adequate insurance?
- Becoming disabled?
- Providing for your dependents?

### Have you considered ...

- Where will you live when you retire?
- How will you spend your time in retirement?
- Will you have the financial resources to support a fulfilling retirement?
- Will you have adequate medical coverage in retirement?
